16. More knowledge about Foreigner Physical Examination Form:

Some items on the physical exam form may be hard to understand for foreigners. Our main concern is to prevent foreigners from bringing infectious diseases to China. For example, chest X-ray is required for tuberculosis, blood test, for AIDs and Syphilis and others epidemic diseases.

Some diseases may be rare in Europe for years, and unless there is a must, doctors wouldn't sign those tests. Under these circumstances, we hereby confirm that you may not need these tests if your doctor thinks you are in perfect health. However, Your doctor is required and highly

appreciated to fill out the physical exam form properly with "OK" or "Good" etc., together with his signature or the stamps of the hospital.

For items like “nose”, “eye”, “ears”, “extremities”, your doctor can simply fill out “normal” or “abnormal”, together with his signature or the stamps of the hospital. As long as the form bears a doctor's signature or the stamps of a hospital, it will be accepted.
